Faculty Position – Aerospace Engineering

Department of Aerospace & Mechanical Engineering

The University of Arizona, Tucson, Arizona

The Department of Aerospace and Mechanical Engineering invites applications and nominations for a tenure track faculty position in Aerospace Engineering, at the rank of Assistant, Associate or Full Professor.

Preference will be given to applicants with expertise in aerospace feedback control systems. Candidates with an established record of externally-funded research are especially encouraged to apply.

Opportunities for synergy with existing aerospace research activities in the department, or with other space-related activities at the University of Arizona (Lunar and Planetary Sciences, Optical Sciences, etc.), will be viewed favorably.

The successful candidate will be expected to teach at the undergraduate and graduate levels and to develop a strong externally-funded research program. Previous teaching experience is expected for senior candidates, and desirable in all cases. Required qualifications are a Ph.D. degree in Aerospace Engineering or closely related discipline, and demonstrated research potential or accomplishments.

Review of materials is currently ongoing and will continue until the positions are filled. Interested applicants should consult the university website URL: <https://www.uacareertrack.com/> and enter job number 39544, then follow instructions to make a formal application for this position. You may also see the position announcement on the Department of Aerospace and Mechanical website by clicking the Department link. Applicants and interested individuals may contact
